DEDUCTIVE ALTERNATES

A.	<u>Alum Tank:</u> This deductive alternate removes the new construction of the second alum tank, as shown in Facility 71, including the new containment structure tank, the new tank, associated piping, and electrical interconnections. The demo of PAC and lime equipment remains in the base bid. It also removes the new alum tank, as shown in Facility 70, including the new tank pad the new tank, associated piping, and electrical interconnections. The new alum feed pump and associated work within the alum feed room and associated piping and electrical interconnections are to remain in the base bid. The chlorine dioxide piping modifications remain in the base bid.	\$353,000.00	\$450,000.00
TOTAL BASE BID LESS DEDUCTIVE ALTERNATE A		\$44,924,000.00	\$46,950,000.00
B.	<u>Finish Water Pump Station:</u> This deductive alternate removes the new construction required to install a new High Service Pump No. 6 (60P6) and the associated piping, valves, and electrical, including the variable frequency drive (60VFD6) located in Facility 60 – High Service Pump Station. All demolition and new construction, including necessary electrical, structural, and HVAC work for installing a variable frequency drive(60VFD4) on existing High Service Pump No. 4 (HSP-5-4) remains in the base bid. All work in the Fluoride Storage Tank and Sodium Hydroxide Storage Tank area remains in the base bid.	\$604,000.00	\$700,000.00
BASE BID LESS DEDUCTIVE ALTERNATE A AND B		\$44,320,000.00	\$46,250,000.00
C.	<u>Welded Steel Ground Level Backwash Storage Tank:</u> This deductive alternate removes the backwash tank from the new construction including the site preparation, connective piping to the existing backwash piping, valves, pressure transmitter, instrumentation and connectivity and concrete valve vault.	\$423,000.00	\$1,000,000.00
BASE BID LESS DEDUCTIVE ALTERNATE A, B, AND C		\$43,897,000.00	\$45,250,000.00

****Apparent Low Bidder**

TOLM Group, Inc. did not include the Davis-Bacon Wage Determination form with their Bid.
